

Save the Date

Join Clean & Prosperous on **Wednesday, January 6, 2027** at the Museum of Flight in Seattle for our 9th Annual Future of Carbon Policy Forum!

For nearly a decade, the forum has brought together legislators, regulators, clean energy innovators, Tribal representatives, industry leaders, and climate advocates for actionable discussions ahead of Washington's legislative session.

The 2027 forum will feature discussions related to reducing emissions from hard-to-decarbonize industries, including aviation, maritime, and heavy-duty trucking, what's next for the Climate Commitment Act, and how Washington state can build much more clean energy, much faster.

Plus: David & Patricia Giuliani Clean Energy Entrepreneur Award

Each year, we honor our late founder and his wife with the David & Patricia Giuliani Clean Energy Entrepreneur Award, recognizing businesses making meaningful advances in clean energy innovation and supporting those at the cutting edge of the clean energy transition.

Sponsorship Opportunities

Become a sponsor of this special event!

Join us as Washington state steps up its commitment to transition to a clean energy economy with prosperity for all. Sponsoring the Clean & Prosperous 2027 Future of Carbon Policy Forum gives your organization an opportunity to connect directly with the leaders shaping Washington's climate and clean energy policy and supports our work to advance commonsense, data-driven efforts to reduce greenhouse gas emissions.

Sponsorship Levels
